

**Bhagwantrao Arts & Science College, Etapalli, Dist- Gadchiroli**

## **BEST PRACTICES**

**Session:- 2018-19**

Employment is the major problem for the students who have completed their education. Special for girls it would been a great deal to go for work to earn outside. So we have thought about the empowerment of the girls studying in our institute for their self-employment from their home.

With accordance to this we have contacted Adiwasi Laxmi Mahila Bachat Gat Jiwangatta Tq. Etapalli, this group is working since 2004. They make various nutritive products from forest produce. These products are nutritive as well as very cheap and are affordable to people of this area. These peoples cannot afford the costly nutritive products. This Mahila Bachat Gat provide their nutritive as well as tasty products at very low cost. They prepare Moha Laddu, Bajara Laddu, Ragi Laddu, Jwari Laddu, Moha Barfi, Moha Pedha, Ambadi Sharbat, and various type of Pickles, etc. by processing forest produce.

This group of women also provide training to the girls and women who wish to start their own business. So, as decision taken in IQAC meeting held on 15<sup>th</sup> Dec. 2018, 30 girls are selected for the above said 3 month training program which is to be held from 1<sup>st</sup> Jan.2019 to 31<sup>st</sup> March 2019.

During this training these 30 girls will learn about the processing, final product preparation, packaging of product and its marketing strategies. After completion of this training, students will get certificates. As it is a registered Bachat Gat, this certificate issued will be useful to these students to start up their own business and for their self-employment.

The next achievement of this activity is these trained students will when start their own business will give employment to other women. This would be helpful for the empowerment of the women in this backward locality.

## मोहा स्विट्स

### Benefits of Mahua :

Mahua is a highly nutritious tree and can also use as an herbal medicine for treatment of various disease. In Ayurveda, it has been reported to be beneficial for heart, skin and eye diseases. It also has ethnomedical properties like antibacterial, anticancer, hepatoprotective, antiulecer, antihyperglycemic, analgesic activities etc. In villages, tribal people offer raw flowers to lactating mothers for increasing their lactation and to improve Adolescent Health.

### Ingredients :

Mahua Powder (Madhuca Longifolia), Nachani Powder, Gul (Jaggery), Kaju (Cashew), Badam (Almond), Anjeer (Fig), Shengdana (Peanut), Till (Sesame), Elaichi (Cardamom), Ghee
