

## 7.2 Best Practices (2018-19)

Describe at least two institutional best practices

Upload details of two best practices successfully implemented by the institution as per NAAC format in your institution website, provide the link

### 1. Title of the Practice:

To run certificate course for girl students for self-employment.

### 2. Objectives of the Practice:

Employment is the major problem for the students who have completed their education. Especially for girls, it would be a great deal to go for work to earn outside. So, we have thought about empowering the girls studying in our institute for their self-employment from their home.

### 3. Context:

The value education cell inculcates among the students:

- Will learn to work for them and will learn how to co-operate each other for work.
- To help others for employment.
- To preach and practice truthfulness.
- To deal with academic and emotional stress by tapping their inner sources of strength.
- To develop a positive attitude in themselves.

### 4. The practice:

The cell has organized the following activities.

- 30 girl students are selected for the training of Preparation of nutritive food products from forest produce.
- The training of 3 months duration which is held during 1<sup>st</sup> January 2019 to 31<sup>st</sup> March 2019.
- The training is given by "Adiwasi Laxmi Mahila Bachat Gat, Jiwangatta Tq- Etapalli." It is a registered Mahila Bachat Gat and are working in this area since 2004.
- After successful completion of the training, these students are issued Training Certificate.
- During this training, the participant students get knowledge of "Processing on food products, Packaging of these food products and marketing strategies".
- This will help them to startup their own business.
- Time to time feedback from students and from agency is taken to know the progress and interest of the trainees.

### 5. Evidence of Success:

Students are taking interest in this practice. They are regularly attending the training despite their packed schedule of usual classes.

### 6. Problem encountered:

- Shortage of infrastructural facilities: As the agency is running in small village, the infrastructure facilities are less to hold training for more participants.
- Shortage of necessary equipment: Need more equipment for processing and packaging.
- Marketing Strategies: Need to improve marketing strategies for selling of these products at National and Global level.

### 7. Resources required:

New modern infrastructural facilities, latest machineries and training on marketing strategies will improve the outcome of the product and will be more profitable.

## **BEST PRACTICES**

**Session:- 2018-19**

Employment is the major problem for the students who have completed their education. Special for girls it would be a great deal to go for work to earn outside. So we have thought about the empowerment of the girls studying in our institute for their self-employment from their home.

With accordance to this we have contacted Adiwasi Laxmi Mahila Bachat Gat Jiwangatta Tq. Etapalli, this group is working since 2004. They make various nutritive products from forest produce. These products are nutritive as well as very cheap and are affordable to people of this area. These peoples cannot afford the costly nutritive products. This Mahila Bachat Gat provide their nutritive as well as tasty products at very low cost. They prepare Moha Laddu, Bajara Laddu, Ragi Laddu, Jwari Laddu, Moha Barfi, Moha Pedha, Ambadi Sharbat, and various type of Pickles, etc. by processing forest produce.

This group of women also provide training to the girls and women who wish to start their own business. So, as decision taken in IQAC meeting held on 15<sup>th</sup> Dec. 2018, 30 girls are selected for the above said 3 month training program which is to be held from 1<sup>st</sup> Jan.2019 to 31<sup>st</sup> March 2019.

During this training these 30 girls will learn about the processing, final product preparation, packaging of product and its marketing strategies. After completion of this training, students will get certificates. As it is a registered Bachat Gat, this certificate issued will be useful to these students to start up their own business and for their self-employment.

The next achievement of this activity is these trained students will when start their own business will give employment to other women. This would be helpful for the empowerment of the women in this backward locality.

## Benefits of Mahua :

Mahua is a highly nutritious tree and can also use as an herbal medicine for treatment of various disease. In Ayurveda, it has been reported to be beneficial for heart, skin and eye diseases. It also has ethnomedical properties like antibacterial, anticancer, hepatoprotective, antiulecer, antihyperglycemic, analgesic activities etc. In villages, tribal people offer raw flowers to lactating mothers for increasing their lactation and to improve Adolescent Health.

## Ingredients :

Mahua Powder (Madhuca Longifolia), Nachani Powder, Gul (Jaggery), Kaju (Cashew), Badam (Almond), Anjeer (Fig), Shengdana (Peanut), Till (Sesame), Elaichi (Cardamom), Ghee

## **Best practice-2: (2018-19)**

### **1. The title:**

Dealing with wastes in the campus.

### **2. Objectives of the practice:**

A group to deal with waste management in the campus is formed constituting of students and staff of the college.

#### **The objectives of this group are:**

- a) To generate awareness among students of managing wastages.
- b) To involve the students in cleaning their college campus.
- c) To set up waste bins in sufficient numbers to avoid littering.
- d) To generate consciousness among students about e-waste accumulation and disposal of e-waste from the college campus.
- e) To promote a sense of hygiene among students.

### **3. The context:**

The content of the practice is to carry out waste management in a participative manner involving both students and teachers and also the NSS Department.

### **4. The Practice:**

A college level program was conducted for the awareness about cleanliness, waste management and importance of recycling on occasion of World Science Day on 10<sup>th</sup> Nov. 2018. In this program, our Principal Dr. S. N. Bute and Dr. S. P. Patil, Head, Department of Botany, told about importance of cleanliness, waste management and importance of recycling. A large participation of about 70 students reflected an active role of group. During the program an oath was taken by both staff and students of the college to clean the college campus regularly. Also keeping the vicinity of the college clean was considered a high priority.

### **5. Evidence of success:**

As an outcome of the program, group of 10 students were formed with a leader from each group. Each student in the group was asked to give a feedback on the waste scenario of the college and how it can be improvised. Also a What's app group was formed for easy access of the students. Important message are regularly uploaded in the group so that students actively involved can be informed at the earliest.

### **6. Problems encountered & Resources Required:**

Funding and Infrastructural bottlenecks are the main problems encountered availability of funds and removal of infrastructural bottlenecks together with increased students participation will make this practice a grand success.
